

Neeraj Singh *Technical Specialist Network & Security*

✉ sneeraj519@gmail.com ☎ 9990909826 📍 Pune, India

Professional Summary

Dynamic Network Engineer with over 9+ years of experience specializing in Cisco Meraki and enterprise networking solutions. Expertise in designing, implementing, configuring, and troubleshooting complex network infrastructures across diverse hardware and software environments. Highly skilled in Software-Defined Networking (SDN), LAN, wireless technologies, and security operations, with a strong commitment to minimizing downtime, enhancing network performance, and mitigating security risks. Proven ability to deliver high-level technical support, manage daily network operations, and provide escalation support in fast-paced enterprise settings.

EXPERIENCE

Technical Specialist Network & Security

01/2025 – Current
Pune, India

Microland

- Led a Cisco Catalyst SD-WAN separation project, overseeing planning, migration, and cutover activities to achieve enterprise network segmentation with minimal downtime.
- Configured and managed Cisco Catalyst 9800 Series Wireless Controllers for secure and scalable wireless network operations.
- Performed configuration and deployment of Cisco Catalyst 9000 Series Switches to support campus and branch network infrastructure.
- Configured Cisco Catalyst SD-WAN solutions to optimize traffic routing, improve application performance, and enhance WAN resiliency.
- Worked on Palo Alto Networks firewall configuration and administration, including security policies, NAT, VPN, and traffic inspection.
- Performed Wi-Fi site surveys and wireless network assessments using Ekahau for optimized access point placement, RF analysis, and wireless performance tuning.
- Implemented Microsoft Azure cloud infrastructure and deployed Cisco Meraki vMX to establish secure connectivity between remote offices and cloud environments.
- Implemented Azure Route Server to enable dynamic routing between NVAs and network gateways, improving routing automation and scalability.

Senior Network Analyst

06/2023 – 01/2025
Noida, India

TELUS Digital

- Worked as a Design Engineer on SDN projects, focusing on Meraki MX appliances, MS Switches, and Access Points.
- Specialized in configuring and optimizing Meraki MX appliances, MS Switches, and Access Points for efficient network performance.
- Responsible for Meraki design, implementation, and troubleshooting for MX, MS, and MR devices
- Designed the solution for integrating the Meraki device with the legacy cisco devices and other firewalls.
- Configured FortiGate as SDWAN.

- Configured and maintained static routes.
- Implemented and managed web filtering to block the traffic.
- Monitored and managed FortiGate devices using Forti Cloud for centralized logging, reporting, and configuration backup.
- Performed firmware upgrades, configuration backups, and health monitoring of firewall devices.

Network Engineer

12/2016 – 06/2023

Wipro Technologies

Pune

- Design, implementation, configuration, and troubleshooting of Meraki, LAN, WAN and Datacenter Infrastructure with Nexus, ISR, ASR, Catalyst Routers/Switches and 2500 model Wireless controller.
- Automated the Cisco Meraki configuration through Postman API.
- Designed and implemented python Script to automate Meraki SDWAN traffic shaping update, firewall rule creation/modification and on networks.
- Worked on KEMP load balancer.
- Worked on cloud solution for integrating the cloud network with Meraki
- Implemented routing protocols.
- Implemented Traffic Filters using Standard and Extended
- Access-Lists, Route Maps and NAT.
- Implemented SNMP on devices to allow for network management.
- Implementation of HSRP, NTP, Tacacs, Radius.
- Implementation of IPsec and ZBF configuration.
- Implementing VTP, STP, & configuring Port Security on Switches
- Managed operation of cisco ISE
- Having good knowledge in azure concept
- Virtual machine configuration
- Having a knowledge of NSG and VNET.
- Configuring load balancer, like application gateway and health.
- Experienced of Change management/Problem management.
- Having an experience in handling major incident and emergency probe configuration
- VM redundancy configuration
- VNET peering activity
- Configured WAF rules configuration in azure.

Network Voice Engineer

01/2018 – 12/2018

Wipro Technologies

Pune

- Deploying voice setups at Call Manager Express (CME).
- Implementing SIP and SSCP phones at CME, including models Cisco iPhone 7925, 7945, 7965, 88XX.
- Worked on SIP trunk implementation.
- Configuring Meet me and Paging functionality.
- Setting up Call Detail Records (CDR) and E1/T1 configurations.
- Implementing configurations to protect sites from outside attacks.
- Troubleshooting a wide range of voice issues.

NOC Engineer

12/2016 – 01/2018

Wipro Technologies

Pune

- Proactively monitoring networks and conducting health checks for all network devices.
- Hands-on experience with SolarWinds.
- Managing P1/P2 incident bridges and providing regular updates.
- Performing L1 level troubleshooting on network devices, including routers, switches, and layer 3 switch Riverbed.

EDUCATION

MTech System Engineering

2020 – 2022

Birla Institute OF Technology And Science

BTech in Information System

2017 – 2020

Birla Institute OF Technology and Science

Diploma in ECE at GNDIT

2013 – 2016

Board OF Technical Education Delhi

Senior Secondary Examination

2012 – 2013

CBSE Delhi

Secondary Examination

2010 – 2011

CBSE- Delhi

Skills

- Cisco Meraki (MX, MR and MS)
- Cisco Switching (Model 2960 , 3750, 3850, 9200, 9300,9500)
- Cisco Routers (2900, 3500, 4k Series)
- Cisco Wireless (2500, 3500, 5500, 9800, Mobility Express.)
- Palo Alto
- Cisco Prime
- Cisco Voice (CME)
- FortiGate
- Cisco Catalyst SDWAN
- Azure
- Python/API
- IPAM/DDI : BlueCat Address Manager (DHCP, IPAM)
- Wifi Survey (Ekahau)
- KEMP

Languages

English

Hindi

CERTIFICATIONS

- Fortinet Certified Associate in Cybersecurity (Valid Till 2028)
- Cisco (300-415 ENSDWI)- Cisco Certified Specialist –Enterprise SD-WAN (Valid Till Feb 2029)
- Az-700 Designing and Implementing Microsoft Azure Networking Solution
- AI Tools Workshop
- Az-104 Azure Administrator Associate
- Project Management Assessment
